According to both El Heraldo and ConfidencialHN, the files of the

The OAS' General Secretary Luis Almagro condemns the act and demands a thorough response by the Honduran authorities. MACCIH also reacts to it via a press release.

Berta - Investigation; MACCIH; UPR; Icifi; and the Honduran Penitentiary System

The UN system in Honduras demands an independent investigation into the

theft of the files about Berta's murder.

ATIC announced that it continues to investigate the theft. In the same article, EL Tiempo also writes that later on Friday, all involved parties came together to reconstruct the files and apparently it was deemed ok. But I don't know, if Berta's family, its lawyer or someone from COPINH was present.

Berta's family and lawyer held a press conference yesterday. They demand

that the MP ends the secrecy in Berta's case.

Olivia Zúñiga denounces that the robbery of the case files is a "message of terror" for all witnesses. And she makes an important point, that I forgot to mention before. This is the second time the files were stolen. Some time back, the offices of MADJ (Víctor Fernández is the family's lawyer) were broken into and the case files stolen.

In the press conference, the lawyer Víctor Fernández reports on a finding, already back in May, of a shirt belonging to the General Attorney in the offices of DESA.

DESA tries to explain it...by saying that they used it as a model to order some shirts in the same style.

Finally, Víctor Fernández told the public that just days before her murder, DESA executives threatened Berta.

The Honduran judicial system is living, once more, through tumultuous

Drug Trafficking; HRDs; OFRANEH; Casa Allianza; Judicial Power; MACCIH; Climate Change; and a Press that Shuts Up

There is mainly one story in today's news: drug trafficking and JOH's

brother Tony Hernández (TH).

TH first said that he doesn't know anything about the accusations. ConfidencialHN believes that the armed forces official Santos Rodríguez Orellana will be extradited as a scapegoat to the US and to turn attention away from TH. Interestingly, back in 2014, the US government lauded Santos Rodríguez Orellana for his work against drug trafficking. Probably to further deviate the attention, JOH claims that there was an assassination attempt planned against him and US ambassador James D. Nealon and that Santos Rodríguez Orellana was involved. His wife, Jennifer Bonilla, demands that the DEA questions JOH about his brother and not her husband. Finally, Radio Globo had a chance to interview Santos Rodríguez Orellana the day before yesterday.

"Another former vice minister of the environment, Roberto Cardona, was

arrested today. In 2013 he approved modifications to the Agua Zarca license without consultation. Prosecutors are requesting he be remanded into custody pending trial because according to the Honduran Code of Criminal Procedure, alternative measures to detention can no longer apply in any case once someone is indicted for crimes in more than one concurrent case, and Cardona was already indicted for influence peddling in the IHSS case." State security forces repressed a peaceful protest by COPINH in front of

the MP with a water tank, tear gas and more. What follows is a report by someone who witnessed the repression:

"The repression was brutal and I've been in most if not all the repressive marches since the coup and this one was up there with the worst. Especially since a Copinh member reported that one police took his gun out and fired a shot at his feet. It all happened so fast and no one expected it and there was no time to get children and elderly out. People were grabbing kids and running with them as they were crying and couldn't breathe from the gas. The police also chased protestors for almost 2 km from the public prosecutor's office to the office of Centro de derecho de la mujer and there was no need to do that."

In a press conference later that day, COPINH and OFRANEH denounced the actions by the state.
